AIROCID AIR PURIFICATION SYSTEM

SCIENTIFIC AIR S400

The Scientific Air S400 is a high-performance air purifier engineered with advanced filtration technology to remove harmful particles, allergens, bacteria, viruses, and odors – delivering **cleaner, healthier and safer air** where it matters most.

- ✓ Powerful. Efficient. Reliable.
- ✓ Designed for critical environments.
- ✓ Breathe cleaner. Live better.

KEY BENEFITS

HEPA FILTRATION
Captures 99.97% of particles as small as 0.3 microns

REMOVES HARMFUL POLLUTANTS
Dust, pollen, smoke, bacteria, viruses and more

IMPROVES AIR QUALITY
Reduces allergens and odors for fresher, cleaner air

QUIET OPERATION
Powerful performance with minimal noise

ENERGY EFFICIENT
Low power consumption, high efficiency

RELIABLE & DURABLE
Built for continuous use in critical environments

HEALTHCARE SOLUTIONS

Transforming Healthcare, Improving Lives

AIROCID 222 AIR PURIFICATION SYSTEM

AIROCID 222

Airocide 222® Technology is a patented air purification solution that uses far-UVC light (222nm) to continuously and safely reduce airborne and surface contaminants.

Unlike traditional UV systems, **Airocide 222 is proven safe for continuous human exposure** while being highly effective against viruses, bacteria, mold, and other harmful pathogens.

- ✓ Continuously destroys airborne and surface pathogens
- ✓ Safe for people, pets and plants
- ✓ Reduces the risk of infections
- ✓ Easy to install, low maintenance
- ✓ Energy efficient and environmentally friendly

KEY BENEFITS

PROVEN PATHOGEN REDUCTION

Independently tested to inactivate viruses, bacteria, mold and spores.

SAFE FOR CONTINUOUS USE

Far-UVC (222nm) is safe for continuous human exposure.

CONTINUOUS & AUTOMATIC

Works 24/7 to keep air and surfaces cleaner at all times.

CHEMICAL-FREE TECHNOLOGY

No ozone, no chemicals, no filters to replace.

LOW MAINTENANCE & LONG LIFE

Engineered for reliability with minimal maintenance.

ENERGY EFFICIENT

Low power consumption with high performance output.

POWERED BY FAR-UVC (222nm)

Proven to inactivate 99.99% of viruses and bacteria in the air and on surfaces.

Safe for continuous exposure around people, pets and plants.

Environmentally friendly solution for healthier indoor environments.

**Performance may vary based on environmental conditions and installation.*

REVOLUTION HEALTHCARE SOLUTIONS

Transforming Healthcare, Improving Lives.

AIROCID AIR PURIFICATION SYSTEM

AIROCID GCS-25

Airocide GCS-25® is a commercial-grade air purification system designed to continuously reduce airborne and surface contaminants using NASA-proven Photocatalytic Oxidation (PCO®) technology.

It actively destroys bacteria, viruses, mold, VOCs, odors and other harmful pollutants—creating **cleaner, safer and healthier** indoor environments.

- ✓ Proven to reduce up to 99.9% of airborne bacteria and viruses
- ✓ Continuously treats occupied spaces safely
- ✓ Reduces mold, allergens, VOCs and odors
- ✓ Low maintenance with long filter life
- ✓ Energy efficient and environmentally friendly

KEY BENEFITS

PROVEN EFFECTIVENESS

Independently tested to reduce up to 99.9% of airborne bacteria and viruses.

SAFE FOR OCCUPIED SPACES

PCO® technology is safe for continuous use around people, pets and plants.

DESTROYS A WIDE RANGE OF CONTAMINANTS

Effective against bacteria, viruses, mold, allergens, VOCs and odors.

LOW MAINTENANCE & COST EFFECTIVE

Long-life catalyst and simple maintenance.

ENERGY EFFICIENT

Low power consumption with high performance.

COMMERCIAL GRADE

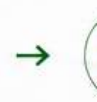

Built for reliable performance in commercial spaces.

HOW AIROCID GCS-25® WORKS

Contaminated air is drawn into the unit.

PCO® cells use a combination of UV light and a catalyst.

A powerful oxidation process destroys pollutants at a molecular level.

Clean, fresh air is returned back into the environment.

UVC - LAMPS

GERMICIDAL UV-C DISINFECTION SYSTEM

UVC Lamps provide powerful germicidal UV-C light (254nm) that effectively inactivates bacteria, viruses, mold, and other harmful microorganisms.

Ideal for HVAC systems, air handlers, ducts, and surface disinfection, UVC lamps help create **cleaner, safer and healthier** environments.

- ✓ Effectively inactivates up to 99.9% of bacteria, viruses and mold
- ✓ Continuously disinfects air and surfaces
- ✓ Reduces odors and improves indoor air quality
- ✓ Easy to install and maintain
- ✓ Energy efficient and environmentally friendly

KEY BENEFITS

PERFECT DISINFECTION

Provides powerful germicidal UV-C disinfection.

BROAD SPECTRUM PROTECTION

Effectively inactivates bacteria, viruses, mold and other pathogens.

IMPROVES AIR QUALITY

Helps reduce odors and maintain a healthier environment.

EASY INSTALLATION & MAINTENANCE

Simple setup with low maintenance requirements.

ENERGY EFFICIENT

Consumes less power while delivering effective disinfection.

KEY BENEFITS

- **Perfect Fit:** Designed specifically for mini-splits, heat pumps, and PTAC units.
- **Prevents Mold & Bacteria:** Continuous UVC sanitation keeps coils clean.
- **Energy Savings:** Clean coils mean better efficiency and lower energy bills.
- **Easy Installation:** Quick install using magnet mounting and compact UVC LED bars.
- **Ideal Applications:** Hotels, apartments, condos, office suites, retail spaces.
